EXPERIENCE

HackerOne

Dec. 2020 – Present

Bug Bounty

Remote

- [HackerOne.com](#) provides a platform for organizations to connect with ethical hackers who can test systems for cybersecurity vulnerabilities and bugs.
- Engaged in proactive vulnerability discovery and reporting for various organizations through the HackerOne platform.
- Collaborated with development teams to communicate vulnerabilities and provide actionable recommendations for remediation.
- Conducted in-depth security assessments and penetration testing on web applications, APIs, and other systems to identify security flaws.

Hack4Gov2/3 Regional (1st Runner-Up/Champion)

Aug.2023 – 2024

Participant

OOO, Philippines

- [Hack4Gov](#) is a hackathon that brings together programmers, designers, and problem solvers to work on projects aimed at improving the government and public sector.
- Competed in various Capture The Flag (CTF) challenges organized by DICT, focusing on real-world cybersecurity scenarios.
- Contributed to the success of the team by sharing knowledge and strategies, leading to high placements in competitions.
